Social Work

Social Work (ISSN 0037-8046) is a professional journal committed to improving practice and extending knowledge in social work and social welfare. The Editorial Board welcomes manuscripts that yield new insights into established practices, evaluate new techniques and research, examine current social problems, or bring serious, critical analysis to bear on the problems of the profession itself. Opinions expressed in the journal are those of the authors and do not necessarily reflect the official position of the National Association of Social Workers.

In the interest of accurate and unbiased communication, the NASW publications program subscribes to a belief in the importance of avoiding language that might imply sexual, ethnic, or other kinds of discrimination, stereotyping, or bias. NASW is committed to the fair and equal treatment of individuals and groups, and material submitted should not promote stereotypic or discriminatory attitudes and assumptions about people.
